

## | April 17 - April 18 Holy week Maintenance Activities

### | April 17 (Holy Thursday)

- 9:00 AM to 12:00 PM

- Both Qumulo clusters are scheduled for upgrade to 7.4.1.1. Communicated to Ms. Connie Go. HPE ILO and SPP will not be upgraded, it is also not a requirement for Qumulo upgrade.
- Perform a \*\*\*Rolling Reboot upgrade
- Path upgrade (see screenshot)

The screenshot displays the 'Qumulo Core Releases' page. On the left, a list of releases is shown, numbered 1 to 5. Release 1 is 7.1.0.1 (Quarterly Release, May 7, 2024), Release 2 is 7.2.0.2 (Quarterly Release, September 21, 2024), Release 3 is 7.3.0 (Quarterly Release, November 6, 2024), Release 4 is 7.4.0 (Quarterly Release, January 22, 2025), and Release 5 is 7.4.1.1 (Instant upgrade, March 25, 2025). Each release has a 'Download' button and links to 'Quarterly Release Notes' and 'Release Notes'. On the right, the 'View Upgrade Path' section shows a path from version 7.0.1.1 to 7.4.1.1, with a 'View Upgrade Path' button and a 'Clear' link. Below this, there is a section 'Getting Help with Upgrades' and 'Upgrade Types' which lists 'Instant software upgrade' and 'Platform upgrade' with their respective requirements.

- 2:00 PM to 4:00 PM

- RaySync version upgrade from 6.8.8.6 to 8.1.8.0

- Perform manual backup first
- Upgrade to version 8.1.8.0
- Perform a new backup (Change directory pointer of the backup script) if confirmed that all functionalities are working on 8.1.8.0

- 6:00 PM to 9:00 PM

- Perform OS and Server upgrades on Mattermost, parsec server and other important ubuntu servers in production
  - Will try to do this using Ansible scripts

### | April 18 (Good Friday)

9:00 PM to 12:00 PM

- Other planned activities (Data Center Cabling, IPMI)

1:00 PM to 4:00 PM

1. AWS VPN secondary checking

5:00 PM to 10:00 PM

1. Continuation of other planned activities (Data Center Cabling, IPMI)
2. Vid checker upgrade and Vantage license update (if required)
